Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Eliza Falwell Freedom Dr Clemson, SC 29631-2634

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. Most of us would pay more for these green solutions. However, will do all in our power to avoid adding to the climate and health impacts that current energy "solutions" - really just quick easy money for the fat cats at Duke Energy - are perpetrating on our environment and families.

Sincerely,

Freyja Helmer-Sindemark 304 Hickory View Ln Apex, NC 27502-6599
